A full package of services

With over 60 years of education expertise, we can support you to achieve your organisational goals and objectives - from transformational teacher development programmes to impactful research and consultancy.

Project Management

We have extensive project management experience, and a proven track record in delivering results on time and to budget. Our approach is based on the PRINCE2 methodology, an internationally recognised system developed by the UK government.

Our project management services can be employed across the range of our services, on a complete project or at an individual project stage.

Teacher Training	Recruitment Programme	Programme Design & Delivery	Placement Testing	Quality Assurance & Development	Research & Consultancy

Teacher Training

We offer teacher training and professional development programmes in line with the aspirations as well as challenges that your organisation faces.

The breadth of topics we can support your team with are covered earlier in this brochure - these can be personalised to your particular group of teachers.

All our programmes are designed and delivered by qualified and experienced teacher trainers.

Recruitment Programme

We have extensive experience in recruiting teachers, teacher trainers, managers and administrative staff. Our dedicated team of experts can provide support at every stage of the recruitment process:

- writing appropriate job and person specifications
- screening CVs and shortlisting candidates for interview
- checking qualifications
- carrying out interviews and helping to select the most appropriate staff.

From working with you to identify your staffing needs to recruiting the best candidate, we ensure the recruitment and selection process is conducted in a manner that is efficient, effective and promotes equality of opportunity..

Programme Design & Delivery

We design and deliver courses for learners at every stage of their learning journey - from pre-school students and those preparing for university to business professionals.

All our programmes are designed to meet your specific organisational objectives and the individual learning needs of participants. We can help with:

- creation of curriculum and syllabus
- identifying and sourcing learning resources
- creation of interactive teaching materials
- extra curricular activity
- programme design

We have a dynamic teaching approach that enables learners to build confidence, develop skills and achieve their learning goals.

Placement Testing

Our language placement testing system enables us to quickly benchmark students' language levels, ensuring programmes are designed and delivered at an appropriate level.

Developed in association with one of the UK's leading language testing experts, these tests are quick to complete and suitable for adults and young learners.

Test results relate to the Common European Framework of Reference (CEFR) - the international benchmark in language competence.

Quality Assurance & Development

The Bell Quality Assurance and Development System (QADS) provides an assessment of all aspects of an educational organisation including:

- teaching
- curriculum and syllabus
- academic management
- assessment procedures
- site facilities
- student welfare

Our QADS framework was developed under the guidance of a former Chair of the Quality Asssurance Agency for Higher Education (QAA).

We deliver high-quality reports that not only present findings in an accessible way, but also translate key findings into recommendations for development.

Research & Consultancy

We provide independent research and consultancy to support the development of new and existing programmes. In addition to subject and sector experience, our team brings in-depth understanding of education research methodology to help organisations:

- assess effectiveness and outcomes
- identify best practice
- provide rationale for investment
- deliver improved quality
